Alfalafa inoculation, Field studies of 277
Alfalfa, Inter-plant variations in certain seed-setting processes in 148
Alkali salts in certain Alberta irrigated soils, and tolerance of crops for these salts. Kind, position and toxicity of 132
"Alkali" soils in Saskatchewan 120
Analysis of soil for seeds. A method of concentrating the seeds from soil for the purpose of counting and naming the seeds in soil survey 641
Annual sweet clover *(M. alba)* of the dwarf branching type, A 210
Apples in artificial atmospheres, Physiology of 315
Apples, Malling stocks and French crab seedlings as stocks for five varieties of 370
Apple tissues as related to drought spot and corky core, The boron content of 41
Application of soil conservation surveys to soil conservation practice in the United States, The 144

Book reviews 108, 216, 287, 339, 558
Boron content of apple tissues as related to drought spot and corky core, The 41
Boron deficiency in cauliflower 388
Boron on the respiratory behaviour of tomatoes, The effect of 738
Butterfat test with particular reference to minerals, The probable effect of nutrition on the 15

Calcium and phosphorus requirements of animals, The problem of determining the dietary 38
Canadian Society of Animal Production (Eastern Section), Eighth annual meeting of the 21
Cauliflower, Boron deficiency in 388
Chemical composition of Russian thistle (*Salsola pestifer* A. Nels) 695
Chemical nature of some typical soil profiles of Saskatchewan, Canada, The 109
Chick rations, A preliminary investigation of the value of corn distillers' dried grains in 700
Chick rations, The rachitogenic properties of cereals in 447
Cleaning of clover seeds, The development of a flotation process for the 60
Climate of southern Ontario 401
Comments on soil surveying in Canada, Some 141
Concord grapes, Pruning and fertilization experiments with 485
Control of snapdragon rust (*Puccinia antirrhini* D. & W.) 524
Control of the greenhouse whitefly in Canada by the parasite *Encarsia formosa* Gahan 529
Corky core of the apple, Effects of some field plot treatments on drought spot and 300
Corn borer, *Pyrausta nubilalis*, Hbn., and the physical factors affecting them. A field study of the flight, oviposition and establishment periods in the life cycle of the European.
I. History and importance of European corn borer in southern Ontario. Methods of study 355
II. The flight of the European corn borer. Annual cycle of flight. Daily rhythm of flight. Flight to light trap 462
III. The flight of the European corn borer. The influence of the physical factors upon flight 536
